

Teacher Mrs Warran

TA Mrs Green

This autumn in Reception we have been focusing on Light and Dark. We made Diva lamps as we celebrated Diwali the Hindu Festival of Lights.

We celebrated our own festival of lights (Bonfire Night), we wrote instructions and made firework marshmallows. This was a cross curricular activity which included literacy and science. The children enjoyed eating their firework marshmallows.

Nursery and Reception enjoyed sharing a collective worship all about Remembrance.

Our learning links day on Judaism was fun and interesting. Reception and Nursery shared this morning taking part in different activities. We made Challah bread, played the Driedel game, made Hannukah cards, (ready for 13th December) and Sedar plates which remind the Jewish people of the time that they were slaves.

We have had fun experimenting with different light sources.

In Reception each child has a Learning Journal. The learning Journal is available for you have a look at after school. This gives you the opportunity to see the different activities that your child has chosen to do in the continuous provision areas inside and outside our classroom.
