

# Year 5 Home Learning- Week commencing 27<sup>th</sup> April

## Art and Design- Architecture

How did you get on with drawing your own house or a neighbour's house last week?

This week and next week, I would like you to explore the work of Hundertwasser and decorate a house in the style of this artist.

Find ideas and a video tutorial at

<https://www.kapowprimary.com/subjects/art-design/upper-key-stage-2/year-5/formal-elements-architecture/lesson-3-hundertwasser-house/>

## Geography

Our topic is Exploring Scandinavia- looking at the countries of Norway, Sweden and Denmark.

I would like you to look at the human geography of the three countries. I have included a table on the Year 5 class page to compare and contrast the three countries. Use the internet to research information.

From what you now know about Scandinavia, which of the three countries would you most like to visit and why?

## Spelling

Here are this week's spellings.

**knight, wrinkle, climb, listen, hour, aisle, succumb, heir, stomach, suggest**

Practice them throughout the week and then test on Friday.

## Dear Parents/ Carers,

Another week of home schooling- I don't know if time is flying by quickly or is very slow! I hope you are all doing well. You may have seen that the BBC have daily lessons that have started for each year group. Could be useful for your child to revise from or try something new that may interest them. I'm certainly going to try out Spanish lessons on there with Sergio Aguero and geography with Sir David Attenborough! <https://www.bbc.co.uk/bitesize/dailylessons>

## Mrs Sibson and Mrs Godsall

I love seeing what you are up to. If you are happy for photos to appear on the website please email them to [homelearning@st-peters.tameside.sch.uk](mailto:homelearning@st-peters.tameside.sch.uk) and our Twitter page @stpetersSB.

## Science- Animals including humans

This week I would like you to complete research for a range of animals (table on Year 5 page) to find out their gestation and average life span. You can also choose some animals that you are interested in.

**Gestation-** the length of a pregnancy

**Life span-** the length of time for which a person or animal live

## RE- Life in the Risen Lord

For the disciples, Jesus' resurrection was a time of mixed feelings.

Can you think of a time in your own life when your feelings of sorrow turned to joy? Write about this event and draw a picture to illustrate this.

## Maths

We are looking at decimals, fractions and percentages this week. I have found some great resources on the White Rose Maths Year 5 Home learning website. If you go to **Week 2**, there are a set of five lessons with videos and worksheets that cover these areas of maths. I will also put the worksheets on the Year 5 page. You can read the worksheets from a screen or print off

<https://whiterosemaths.com/homelearning/year-5/>

Please continue with Timetables Rockstars and Numbots as well. I'll be setting a mix of battles over

## Writing

Continue to go to [www.pobble365.com](http://www.pobble365.com) for the daily writing challenge there. Copies of each day's activities can be found on the Year 5 page.

## French

Keep up your French by exploring the BBC website.

<https://www.bbc.co.uk/bitesize/subjects/z39d7ty>

## Reading Comprehension

This activity links in with our computing work this half term, which I will set in the next couple of weeks. I would like you to read about the life and work of Alan Turing. The activity is differentiated three ways. If you fancy the challenging read, have a go at the \*\*\* sheet.
