

Fill in the missing numbers in these subtraction questions.

1. $20 - \square = 10$

2. $\square - 50 = 30$

3. $30 - \square = 10$

4. $60 - \square = 40$

5. $40 - \square = 30$

6. $\square - 40 = 30$

7. $50 - \square = 20$

8. $90 - \square = 40$

9. $60 - 20 = \square$

10. $70 - 20 = \square$

11. $80 - 60 = \square$

12. $100 - 30 = \square$

Remember that you can check subtraction with addition.

Fill in the missing numbers in these subtraction questions.

1. $30 - \square = 10$

2. $\square - 40 = 40$

3. $40 - \square = 30$

4. $60 - \square = 30$

5. $50 - \square = 20$

6. $\square - 30 = 40$

7. $60 - \square = 10$

8. $90 - \square = 50$

9. $70 - 40 = \square$

10. $70 - 20 = \square$

11. $80 - 50 = \square$

12. $100 - 90 = \square$

Remember that you can check subtraction with addition.

Fill in the missing numbers in these subtraction questions.

1. $40 - \square = 10$

2. $\square - 50 = 20$

3. $50 - \square = 20$

4. $70 - \square = 10$

5. $60 - \square = 40$

6. $\square - 40 = 50$

7. $70 - \square = 20$

8. $90 - \square = 20$

9. $80 - 60 = \square$

10. $80 - 30 = \square$

11. $90 - 30 = \square$

12. $100 - 60 = \square$

Remember that you can check subtraction with addition.
