

Aims Of Our School

- That all members of the school community strive for excellence in every area of school life – each and every day.

To spend time with Jesus, and time doing the work of Jesus, each day.

- To create an interesting, stimulating and friendly environment, reflecting the Catholic ethos of the school; and to foster a love of life and learning.

"I come that they may have life, and have it to the full" [John 10:10]

- To nurture a respect for all faiths, world views, races and cultures and to appreciate the views, beliefs and moral values of everyone. Through this respect and appreciation, to prepare our children to be citizens of modern Britain who live out our British Values in their daily adult lives.

- To promote a high standard of behaviour throughout the school community, witnessed by a growing sense of responsibility, self-respect and respect for others.

- To recognise children as individuals, giving them the confidence to reach their full potential in all aspects of life.

- To help children become independent learners, giving them the skills to meet the challenges of our ever-changing world.

- To maintain and strengthen a constructive partnership between home, school, parish and the wider community.

- Through high quality teaching, to ensure that all of our children benefit from a broad, balanced, adapted curriculum matched to their ages, abilities, aptitudes and needs.

Our school exists to develop the spiritual, academic, social, moral and physical development of the children entrusted to our care.

We are guided by our faith, we live each day in the love of God and neighbour, and we aspire to excellence in all we do.

In the love of God and neighbour
